- MEMORANDUM FOR: Chief, Counterintelligence Staff

FROM: John M. Ray  
Director of Logistics

SUBJECT: Renovation Work for the New Counterintelligence Center

1. Please be assured that we are doing our best to support the consolidation of the newly created Counterintelligence Center (CIC). While it is not feasible to complete the entire project this month (June), we will be able to meet that deadline with respect to some areas of the CIC.

2. The following is our current schedule regarding the renovation of CIC space in the Original Headquarters Building:

a. The support area (Room 2D0105) will be completed this week.

b. The Wang area (2B16) will be completed by late June.

c. The front office area (Rooms 2C29-43) will be completed by late August, or early September.

d. The Analysis Section area (Room 2B19) will be completed by early November.

Some of the time involved (but by no means all) has been consumed by attempting to finalize CIC requirements as reflected in CIC memoranda dated 25 April and 5 May.

3. We realize how important this effort is to you and the DCI and we will, accordingly, expedite our work to the maximum. We will continue to work closely with [redacted] of your staff in designing and renovating your space in the building. Please give me a call if you would like any additional details.

MEMORANDUM FOR: Director of Logistics

FROM:

Associate Deputy Director for Operations/  
Counterintelligence

SUBJECT: CI Center Space Needs

1. To date our discussions concerning space have focused on our immediate space needs for establishment of the CI Center. To facilitate planning for the 1991 CI Center move, I would like to alert you to our long term space needs.

2. My understanding is that the Center is scheduled to move to a "final resting place" in the old headquarters building on 3D and E corridors in 1991 and that this space consists of [ ] square feet which would house a maximum of [ ] people at [ ] square feet per person. As it stands now, I anticipate that the Center will have a minimum of [ ] people to house in 1991 and will require [ ] square feet for personnel space, vault space and a conference room. We will be short some [ ] square feet if we are to be assigned the 3D and E space as planned. Therefore, I would appreciate your advising what other options are available for housing the entire Center in 1991. Thank you.

3. All portions of this document are classified SECRET.
